Franchise Partner Opportunity Snapshot

Own the digital map of your PIN code

List My India™ is India's hyperlocal business directory, organised PIN code by PIN code. This deck covers the problem, our solution, the market and the franchise opportunity.

19,000+
PIN codes, one Franchise Partner each

30–55%
Revenue Share, by tier

₹1,35,700
Total to start, Bronze incl. GST

Local businesses are invisible to their neighbours

Hard to find

Home-based and small businesses are missing from maps and directories.

Hard to afford

Directories cost ₹3,500–7,000 a month. Pamphlets cost ₹5,000–10,000 per 1,000.

Hard to measure

Over 8.9 crore enterprises are registered, yet owners cannot see who looked at them.

THE GAP

Registration is not the gap. Discovery is: the customer a few streets away still cannot find the business next door.

What local businesses use today

Pamphlets

₹5,000–10,000

per 1,000, incl. printing and distribution

- Read once, mostly discarded
- No way to track responses
- Full cost again every run
- Not searchable afterwards

Google Business Profile

Free

but it needs time and know-how

- Setup and verification skills needed
- Hard for home-based owners
- Larger shops rank higher
- No local hand-holding

Paid directories

₹3,500–7,000

per month, typical paid listing (e.g. JustDial)

- Recurring cost before first customer
- Priced for established shops
- Visibility rises with spend
- Little in-person support

Figures are approximate local estimates; actual cost varies by city, package and vendor.

Fit for home-based and street vendors	Possible, but costly	Often difficult	Priced for shops	**Built for them**

Indicative comparison for typical small-business use. Features and prices of other services change; figures are approximate.

A very large, under-served local market

147.7 crore
India's population, mid-2026

55.5 crore
people in urban India (37.6%)

8.9 crore
enterprises registered on Udyam and UAP

19,000+
PIN codes, our unit of organisation

What a PIN code looks like

- About 78,000 people per PIN code on average (147.7 crore ÷ 19,000+).
- Urban PINs are denser: Raj Nagar Extension (201017) is assumed at 2,26,000.
- Each PIN code is a self-contained neighbourhood market.

Why now

- Smartphones, UPI and WhatsApp are everyday habits, even for small shopkeepers.
- "Vocal for Local" has made buying from neighbourhood businesses a national priority.
- Registration is widespread. Discovery is the missing layer.

Sources: Worldometer (July 2026), Ministry of MSME release reported 14 July 2026. PIN-code count is approximate.

What one PIN code can hold

AT 1,00,000 POPULATION, BY YEAR 3

3,741 paid listings

and ₹2.79 crore of Territory Revenue over three years, at Target pace in our model.

1 PIN code = 1 Franchise Partner

No other Franchise Partner in your PIN code for the 3-year term. The more businesses you list, the more you earn.

TAM is the estimated number of addressable businesses. Targets are aspirational and illustrative, not guaranteed. Your Territory's own figures are set out in Annexure A.

How the platform earns, and how you share in it

Paid listing plans

Monthly subscriptions. Prices step up each quarter; a subscriber's rate is locked.

One-time setup fees

A one-time fee when a business moves to a paid listing.

Sponsorships

Homepage, Search and Category banners and featured slots.

Other platform revenue

Value-added services and lead or marketplace commissions.

YOUR SHARE

Revenue Share on Territory Revenue

Settled monthly by the 10th, with a statement. The Company issues all customer invoices.

Income from the Company's social media is not part of Territory Revenue. Projections for your Territory follow in the investment and returns slides.

Why a PIN-code franchise

Why it works

- One PIN code, one Franchise Partner: exclusive for 3 years
- Recurring monthly Revenue Share, not a one-off commission
- Lean to run: the Company handles technology, invoicing and collections
- Kit, training and partner dashboard included
- Clear numbers: see the investment and returns slides

Who we look for

- Local entrepreneurs known in their neighbourhood
- Women and young entrepreneurs, with special pricing on Bronze and Silver
- Coaching, tuition, retail and marketing professionals
- People ready to run local marketing every month

How the franchise works

What LMI provides

- Platform, brand and a page for your PIN code
- Franchise Kit: printer, standee, canopy, T-shirts, email ID and dashboard
- Initial training on standards, marketing and reporting
- All invoicing and collections; Revenue Share settled by the 10th
- Local and pan-India digital marketing at Company cost
- Exclusivity: no other partner in your PIN code for 3 years

What you do

- Onboard shops, home-based ventures and street vendors
- Keep listings accurate; explain plans and sponsorships
- Follow up on renewals and give first-line support
- Monthly local marketing: ₹5,000 / ₹9,000 / ₹10,000 by tier, or 5% of last month's Revenue Share if higher
- Send a short monthly marketing report with receipts
- Stay above the Franchise Minimum performance floor

HOW YOU EARN

Territory Revenue is what the Company collects in your PIN code: plans, setup fees, sponsorships and other platform revenue. You receive your tier's Revenue Share on it every month. Social media income is excluded. TDS under Section 194H applies; Form 16A is issued.
